

Boundary Policy - Skiers and snowboarders wishing to go outside of marked area boundaries do so at their own risk. Area outside of marked boundaries are not patrolled. Unmarked hazards of all types exist. Search and rescue operations may be authorized and conducted by Stevens County Sheriff Department. You or your heirs will be financially responsible for this service.

Any person skiing or riding outside the confines of trails or runs open for skiing and snowboarding within the ski area boundary shall be responsible for any injuries or losses resulting from his or her action.

Skiers and riders should be advised that a Green Circle, Blue Square or Black Diamond trail at one ski area is not necessarily the same as a similarly rated trail at another ski area. The system is a relative system, valid only on the trails at a single ski area. Skiers and riders should work their way up, beginning with the easiest trails, no matter what their ability level may be, until they are familiar with the trails at that ski area.

Mountain Statistics

Top Elevation	5,774'	1,759.6 m
Base Elevation	3,923'	1,195.2 m
Vertical Rise	1,851'	564.2 m
Longest Run	2.5 mi	4.03 km
