SOUTH LAKE TAHOE: 25 MILES/HWY 28

Freestyle Terrain

Look before you leap.
Scope around the jumps first, not over them. Know landings are clear, and clear yourself out of the landing area.

Easy style it.
Start small and work your way up. (Inverted aerials not recommended.)

Respect gets respect.
From the liftline through the park.

*This design (and symbol) designates freestyle terrain with no poles and pipes. Invert style represents freestyle terrain safety. Know it. Respect it. Use it!
